Dear Parent,

Following our previous letter of 23rd May, regarding the surveying work Ocean Housing have been carrying out in the local area, we have now been advised by Ocean Housing that they are currently investigating an additional area of ground just outside the boundary of both the Infant and Junior School sites to establish the extent of historic mining activity in that specific area.

Although investigation of this area, adjacent to the Infant school car park, does not suggest any potential issues within the school boundary itself, as a precaution we have arranged some temporary fencing to be erected in the Infant School car park to keep school users away from the boundary until the investigation is complete.

On behalf of the two Schools, the Aspire Premises Team continues to remain in daily contact with Ocean Housing to ensure we are kept up to date with the situation. As always, the safety of the children, staff and anyone else coming onto the school site is paramount, so you can be assured that we will let you know if the situation changes.

Yours sincerely

Mr. M. Corbett
Head of School
